

	Environmental Management System UNI EN ISO 14001:2015	Rev.0 Data: 01/03/2022
	Environmental Policy	

S.I.I.T. S.r.l. recognizes the fundamental relevance of environmental management in its own activities in order to provide its own contribution to a sustainable economy.

To achieve this goal S.I.I.T. S.r.l. defined its Environmental Policy as a reference for everyone who operates in the name of the Company as a priority in their business management.

S.I.I.T. S.r.l. is committed to:

- Acting responsibly in compliance with environmental legislation ;
- Implementing and maintain an **Environmental Management System** in compliance with **UNI EN ISO 14001:2015** fulfilments, integrated in the Company's management supported with proper resources and periodically reviewed;
- Engaging all workers in order to promote environmental responsibility;
- Reducing to the minimum all significant environmental by the systematic and constant use of proper environmental procedures;
- Preventing exceedances and reduce natural resources consumption (raw materials, water, energy);
- Separate, recover and recycle waste in order to avoid disposal;
- Assessing internal processes and activities identifying environmental issues and setting goals for a continuous improvement;
- Ensuring compliance of internal processes with legislations, regulations and each environmental applicable law in the Company sector.
- Reviewing periodically the Environmental Policy in order to ensure it is pertinent and suitable to Company management.

The implementation of **Environmental Management System** is fully shared and approved by the Company Management.
